CIVIL ENGINEERING | GREEN INFRASTRUCTURE

Greening Urban is a **full-service civil engineering, surveying, and permitting firm** with built projects in Washington, D.C., Maryland, Virginia, and California.

What sets Greening Urban apart from the competition?

- Our staff's combined **32 years of experience** developing permitted construction documents.
- **Full Survey Services,** including Aerial LiDAR and Subsurface Utility Location with GPR (Ground Penetrating Radar)
- In-House **Permit Expediting**
- Our number one priority is **client responsiveness.**

Core Capabilities

- Civil Engineering
- Surveying
- Permitting
- Green Infrastructure / Sustainability

Civil Engineering

Our team has extensive experience in preparing **high-quality design and construction documents** that meet permitting requirements.

- Stormwater Management Plans
- Erosion and Sediment Control Plans
- Green Area Ratio (GAR) Plans
- Utility Plans
- Traffic Control and Public Space Plans
- Full Service Permitting Services
- Construction Administration

Green Infrastructure

Our team has extensive experience with **innovative stormwater management practices**, such as vegetated rooftops, rain gardens, rainwater harvesting, and other measures to capture, filter, and reduce stormwater runoff. We also incorporate solar integration and tree preservation to **enhance environmental resilience**. Example services include:

- Green Roofs
- Permeable Pavement
- Rainwater Harvesting
- Bioswales

Permitting

Our **licensed permit expeditors** integrate and streamline the design and permitting process through close client/team coordination. We pride ourselves on learning and excelling in expediting permits in **any municipality or government agency**. Example services include:

- Building Permits
- Stormwater, Utility, and Tree Permits
- Department of Transportation Permits

Government Certifications

- **District of Columbia SBE** (Small Business Enterprise)
- **District of Columbia CBE** (Certified Business Enterprise)
- **MWAA SLBE** (Metropolitan Washington Airports Authority Small Local Business Enterprise)

Highlighted Projects
